Shoe Skates . . . 40c

One Admission Price to Couple Thursday
New Shoe Skates for sale at rink

Russia Forms Defense on Borders

By EDDY GILMORE

Moscow, Feb. 19 — (P)—Russia has forced the last link in a chain of friendship with the United States against the "imperialist states," Foreign Minister V. M. Molotov announced last night.

Molotov spoke after the signing of a Soviet-Hungarian friendship and mutual assistance treaty.

Russia now has, he said, "pacts of friendship with all states on its western frontier — from the Black Sea to the Baltic."

"We Soviet people see in this an important success in the realization of Prime Minister Stalin's foreign policy, directed toward the strengthening of friendship with all neighboring states and consolidation of a general peace," he stated.

He said the treaties were concluded in "conformity with the aims and principles of the United Nations organization."

Replying to Molotov, Lajos Dinnyes, Hungarian premier, said his people now enjoy, for the first time in history "the opportunity of co-operating with a great power, the Soviet Union, which disinterestedly and without ulterior motives, helping us to security and independence."

Observers in Moscow said the Russian-Hungarian agreement prevented possible participation by Hungary in the Marshall plan or in any western European union of nations.

Russia also concluded trade pacts last night with Belgium and Luxembourg.

Andaman said yesterday that the defense "will be the history of this boy from his birth." He said he will show that Lang was insane at the time of the killing, as a result of his environment in the drab industrial neighborhood on Chicago's West Side.

KILLED BY TRAIN
Benton, Feb. 19 — (P)—Adolph Richardson, 53, of West Baxite, was killed when he was struck by a Missouri Pacific locomotive here yesterday.

Only about 30 percent of the American people see efficiently without visual aids.

Social Calendar

Thursday, February 19
Hope Chapter 323 O.E.S. will meet Thursday evening at seven thirty at the Masonic Hall. All members are urged to attend.

Saturday, February 21
The Azalea Garden club will meet at two o'clock Saturday afternoon at the home of Mrs. B. E. McMahon at the S.P.C. Associate hostesses will be Mrs. William Johnson and Mrs. Walter Verhalen, Jr.

Sanders-Hutson Engagement Announced

Mr. and Mrs. John Austin Sanders of Houston, Texas announce the engagement and approaching marriage of their daughter, Mary Elizabeth to Mr. Paul Carson Hutson, son of Mrs. L. W. Hutson and the late Mr. Hutson of this city. The marriage will be solemnized at eight o'clock Friday evening, March fifth at South Main Baptist church in Houston.

Donate Cards, Records and Magazines Now

If you have not contacted the Hempstead County Committee for Cards and Hospitals to make your donation of used playing cards, victrola records and magazines do so now.

Deliver to or call one of the following members of the committee: Mrs. R. L. Gosnell, Mrs. E. C. Wainfield, Mrs. W. Y. Foster or Mrs. Leo Robins. By doing so you will expedite delivery as these donations must be packed for delivery.

John Cain Chapter, D.A.R. Luncheon Meeting Wednesday

Mesdames Paul W. Klipach, L. K. Person and Charles P. Witsell, Jr. were hostesses to John Cain Chapter, Daughters of the American Revolution at 12:30 p.m. Wednesday, February 19, when a three course luncheon was served in the private dining room of Hotel Barlow. Decorations for the long dining table was a lovely arrangement of stocks in pastel shades, acacia and ferns.

Mrs. W. E. Williams led the salute to the flag and the regent, Mrs. Catherine Richards-Howard gave the opening ritual. Minutes of the January meeting were read and plans for the State Conference, Arkansas Society, Daughters of the American Revolution.

tion in Fort Smith on February 22 and 23, were discussed. Misses Gracie Lee Bright of Hope and Martha Williams of Garland City, winners of the Good Citizenship awards from Hope and Lewisville High Schools were introduced by the regent and presented with corsages. Several of Miss Bright's posters were exhibited and Miss Williams played "The Butterfly" and "To a Water Lily" (MacDowell). Miss Janet Lester of the Senior Class of Lewisville High School was also present, the guest of Mrs. R. L. Searey.

Mrs. Howard presented Mrs. No. Jan Tollett, guest speaker, who took for her subject "Preservation for Peace" and enlarging upon her theme by discussing what the local Chapter of the Daughters of the American Revolution might do to educate youths in the value of peace and how it might be attained and maintained.

But four or five generations have lived since our forefathers were rebels, fighting for and earning independence for the Colonies," she stated, "yet since the end of the Revolutionary War, America has found herself engaged in five major wars and several of lesser caliber."

Stressing the need to be well informed on world, national and local questions, she asked how many could intelligently discuss such subjects as Democracy, Communism, Socialism, the UNO, UNESCO. "Information is essential," she said, "but we must learn to differentiate between truth and propaganda in our studies."

Mrs. Tollett urged the formation of Good Citizenship Clubs in High Schools; a Girl Scout Troop sponsored by D.A.R. Chapters; a Youth center; radio programs and other activities stressing good citizenship and its rewards.

She stated that keeping informed as to the content of Bills before Congress and letting our Senators and Congressmen know our opinions of them was essential if we were to be well represented and our country's welfare maintained. Concluding her discussion, Mrs. Tollett emphasized the fact that boys and girls are the raw material from which men and women are made. They will be dependent on the efforts of each of us. What will we do about it?"

Other guests for the meeting were: Mrs. A. E. Slusser; Mrs. George Peck; Mrs. R. E. Baker; Mrs. M. C. Cox; Mrs. M. T. E. Lewis; Mrs. W. J. Bellard; Mrs. H. C. Whitworth; Mrs. G. P. Casey and Mrs. Vincent Foster.

Mesdames Lee Holt, J. M. Houston and Ralph Burton will be hostesses for the luncheon on March 19 at which time Mrs. Charles A. Haynes will be in charge of the program.

Lilac Garden Club Meeting Held Wednesday Afternoon
The Lilac Garden Club met Wednesday afternoon at the home of Miss Mabel Ethridge with Mrs. S. G. Norton and Mrs. E. W. Copeland as associate hostesses. The home was attractively decorated with arrangements of snapdragons and flags.

The president, Mrs. Fonzie Moses, presided over the business session and heard committee reports. Mrs. W. O. Beene gave a report on the Federated Garden Clubs. During the business session the club voted to contribute five dollars to the Arkansas T.B. Sanatorium Library Fund.

The roll call was answered by naming a famous rose. Mrs. A. E. Slusser introduced Mrs. Deway Camp who gave the Legend of the Rose. Mrs. M. M. Smyth gave an interesting paper on New Roses. Mrs. Slusser gave the February Gardening Guide.

During the social hour the hostesses assisted by Mrs. W. W. Clement and Mrs. W. Y. Foster served a delicious salad plate to twenty two members and one guest.

Coming and Going

Mrs. W. B. Ruggles spent Wednesday in Hot Springs visiting Miss Lucille Ruggles at the Levi Memorial Hospital.

Mrs. Lynn Downs and Mrs. J. C. Downs spent Wednesday in Magnolia visiting with friends and relatives.

Herbert Burns spent Wednesday in Dallas on business.

Personal Mention

Friends of Allison Shields, Jr. will be pleased to learn that he is reported as much improved.

THE STORY: Ann Bancroft — Mrs. Rush Bancroft—suddenly becomes terrified. Someone has waxed the soles of her new brown pumps. Someone who evidently wants her to slip and fall down the steep staircase at Tophill. Ann discovers the can of wax in her closet. Her fright increases when she gets a letter from a Mr. Stark about work done on the swinging bridge over the ravine in the garden. The workman writes that the bridge was in perfect condition on May 23. But on May 30 the bridge collapsed, carrying Luke. Ann stayed behind to attend to the last-minute preparations. Rinda was Ann's one-time college roommate, now visiting the Bancrofts. Laurie was Ann's 19-year-old sister, and Tommy was Laurie's fiance. Ann is about ready to follow them when she hears someone at the back door.

VI
It was Luke, The gardener. He'd started into town, got a flat tire. He'd walked back for a jack. It was in the garage and he'd get it but the walk had been long and dusty and if he could please have a glass of water?

"How about lemonade?" Ann asked. "I just made some for the picnic."

Lemonade would be fine. Ann drank some with him, standing against the big square kitchen table. Then she rinsed out the tumblers, put on her dark glasses, picked up the big gayly striped Mexican basket and the gallon thermos.

"You going down the steps with all that stuff?" Luke asked but she said no, she was going over the bridge. It was so much quicker.

"Well, I'll carry it for you," Luke said. "I won't take a minute and that basket looks heavy." Luke picked up the basket and the thermos, went out the door, and through the back yard toward the ravine.

Ann stopped only long enough to pull the shades at the windows over the sink because the sun hit the kitchen windows in the afternoon and made the room hot. Then she followed Luke down the path.

She wasn't more than 15 steps from the bridge when Luke stepped on it. She couldn't have been. In fact, he turned and saw her and she raised a hand in salute and that was when it happened. Luke took two more steps and, without a sound, the ropes gave way.

She knew she would never forget this. Ann, Luke realized what was happening: she would never forget the plunging body, the picnic baskets hurtling through the air, the dull smack of the bridge as it struck the rock wall on the other side of the ravine.

The others heard Luke's scream and came running. They stood on the far side of the ravine and stared, with horrified eyes, at the sprawled body inert on the floor of the ravine, at Ann, standing, stupefied, not three feet from the edge. She'd moved forward, of course, without knowing she had done so.

"Get back!" Rush shouted harshly. "Ann, for Pete's sake, get back!" and then he said to someone else, "She's going to faint!"

Cripes, Tommy, get out of my way!"
When she opened her eyes she was in her own room, on her own bed, and Rush was on his knees beside her.

Rush spoke, and there was a little frantic note in his voice. Rush said, "Oh, Ann, my dearest, thank God it wasn't you!"

Luke was dead.
His neck, as well as most of the bones in his body, was broken. Rush called the doctor who in turn notified both the coroner and the sheriff, Sheriff Sam Blanding. The authorities, Rush said, his lips white, had to be notified in case of sudden death.

They went out into the garden to look at the bridge, to check the ropes, to see if they could figure out what had caused the accident. Sam Blanding shook his head and said, "It ain't safe 'till we get contraptions around 'till I guess." There was more than a trace of disapproval on his face and in his voice as he leaned over to inspect the ropes.

"Know when you had it looked at last, Mr. Bancroft?"
Rush came in, finally, to ask her if she remembered when the bridge had been checked.

Ann looked blank. She didn't know, couldn't be sure. Luke had taken care of such things and now Luke—she rather thought last fall. The inquest took place two days later and while everyone from Tophill had to attend, the result was a foregone conclusion.

The verdict was accidental death, followed by a pointed suggestion from the coroner that, should the little bridge be replaced, it be checked regularly.

Recalling all this, Ann drew a deep breath.
Would that verdict of accidental death remain unchanged if she were to show Mr. Stark's letter to the coroner? What had been done to the bridge to make it collapse? Were there ways to shred a rope almost through so that the slightest strain would make it give way and yet conceal that shredding so that to the naked eye it would appear that the fault lay in the weakness of the rope itself?

It was simply that she knew now, and the knowledge turned a trap. A death trap. She had been supposed to step upon the bridge. She, Ann Bancroft, not Luke.

Bishop's Niece Becomes Sheriff, But Without Gun

AP Newsfeatures
Charlestown, W. Va.—A bishop's niece is the new sheriff in this West Virginia mountain area and she pooh-poohs the thought of packing a pistol.

Miss Carrie Strider seemed shocked when asked if she would carry a gun as sheriff of Jefferson county. She says: "I'll be dealing with peaceful people who will do what I ask them. My only worry will be to see that the taxes are collected."

Miss Strider, whose uncle is

The Doctor Says:

By EDWIN P. JORDAN, M.D.
Written for NEA Service

The natural source of food, during the first few months of life, is the mother's milk. Until recent years, it was assumed by most people that this was the best source of food for the newborn infant, and certainly most children did not fed in this way did not thrive nearly as well as those who were.

Because specialists in children have done so well in working out methods for feeding infants with cow's milk, to which various other substances had been added, some mothers have lately come to the conclusion that it is hardly worth while to try to nurse infants directly.

Although it is true that many infants do well when not fed on their mother's milk, it is not true that breast milk is no better than any other form of infant feeding. Breast milk, as a specific food for babies, contains proper quantities of the food elements necessary for good nutrition in the early months of life.

Some physicians feel that there is an emotional value, both to the mother and the baby, in breast-feeding. This question has not been entirely settled, although it does seem likely. On the other hand, a child who is not breast fed by no means certain to develop emotional problems.

There are some occasions in which nursing the infant is not advisable, because of some condition of the mother, because the infant was premature and too weak to suck satisfactorily, or because the amount of milk is insufficient for the needs of the infant. In most such cases, nursing is desirable for at least a while, but additional feedings are required.

Economical Food
Human milk as a food, still remains the best kind of milk for young infants, although it may not supply complete needs after the first few weeks. Breast milk has some value in building up resistance of the infant and is economical and time-saving in the household. It is undoubtedly the safest and best infant food in most cases.

QUESTION: Does nervousness cause a person to have a gastric condition?
ANSWER: It is recognized that nervousness has a great deal to do with the stomach, for example, an emotional upset often brings about a recurrence of the condition.

In the early days of the industrial revolution, English law forbade machinists to leave the country.

Bishop R. E. L. Strider of the West Virginia Episcopal diocese, is unmarried and 38. As she prepared to uphold the law with a smile and friendly blue eyes, she commented: "I expect a peaceful time while I hold office. You see, I'll have three men deputies. They'll be peaceable, too, unless someone happens to rile them."

Thieves Find This Car Not Easy to Steal

Cleveland, Feb. 18 —(P)—Two robbers today attempted to steal a car equipped with home-made anti-theft devices—with this result:
The engine suddenly went dead after a short distance, the horn started blowing, the lights began to flash and the brakes locked.

The bewildered robbers leaped from the car and fled.

U. S. Decides Plan to Use on Palestine

Washington, Feb. 18 —(P)—Secretary of State Marshall said today the United States has just about decided what position it will take on the Palestine case in the United Nations Security Council.

The Palestine case is to come up in the council Tuesday. The U. N. body will have to deal with such issues as these:

1. Whether an international police force should be sent to Palestine.

2. Whether the decision that Palestine should be divided in Jewish and Arab states should stand.

Marshall did not say what the United States may favor.

Marshall also told his news conference:

1. That as far as he knows there is no basis for what he called rumors that the Russians have put out "peace feelers" to American officials in Berlin for settling the "cold war" between the U. S. and Russia.

2. That there is no foundation for the recent Russian charge that the United States negotiated with Hitler Germany in 1933 over a possible "separate peace" for World War II.

3. That the United States is deeply interested in the conflicting British, Argentine and Chilean claims to certain Antarctic islands but regards the issue as one for settlement by those three countries.

4. That the United States hopes very much that negotiations beginning in London next week for four-power (U. S., Britain, Russia, France) agreement on an Austrian peace treaty will be successful. He said this country will continue to negotiate as long as there is any chance for any agreement.

The kings of Dahomey in western Nigeria maintained units of female troops armed with blunderbusses and shotguns as late as the 19th Century.

DOROTHY DIX Tortured Babies

When we hear of a baby being tortured by its parents, or by sadists with a criminal complex, we are ready to organize a mob and lynch them. We feel that something with boiling oil in it is the lightest punishment that should be inflicted on anyone who would deliberately hurt one of these angelic little beings who are so helpless to defend themselves. Yet probably no other members of the human race suffer martyrdom so often as babies do.

And this is not because anybody has any grudge against babies. On the contrary, most of the world kneels by the cradle. It is just because so many grownups are so dumb that they do not realize that an infant has feelings, even as they have, and so they bat around a little bundle from Heaven as if it were a rag doll.

In proof of this read this letter, which recounts the sufferings of a nine months-old boy at the hands of his sisters and his cousins and aunts. His mother, who has to stand helplessly by and witness the child's torture, as many another young mother has to do, because you can't offend the relatives who come to see the baby bearing presents in their hands, says:

Taken Through Paces

"Johnny is as good as gold and he does his best to please a brave front and look pleased when somebody says: 'Make the darling laugh.' So he is laid on the floor on his back and tickled on his stomach and rolled back and forth by two big adult hands, and he hysterically laughs and laughs as if to say, 'well, I've done that and it's a plenty.'

Then he is picked up and zoomed through the air, giggles, dives, then zoomed again and nose dived some more, and he still laughs. Then he is made to pat-a-cake until his poor little hands are black and blue. Then he is smacked on his rear and smacked some more to make him tough. Then he cries, real big tears rolling down his cheeks, and the reason for his crying is that he is sleepy and exhausted and bewildered and he needs his food and he has had too much excitement."

"But it has been a Roman holiday."

Only about 25 per cent of American farm homes have running water.

day for the nine adults who put the poor little thing through his paces. And if this isn't a torture scene worthy of the old days, the Coliseum in Rome, I don't know what is. But it is done to babies every day."

Nor do I. But one of the most curious things about fatherhood and motherhood is that so many parents do not seem to think their children have any intelligence or sensitiveness. They never seem to realize that little Johnny might hate to be kissed by some toothless old hag as much as they would, or that Mamie feels that she is being flayed alive when Grandma and the aunts take her apart, limb by limb, and descend on her unfortunate it is that she has the Jones' nose and the Smiths' teeth.

In many cases, children's sullen dispositions, their lack of ambition, their bad manners, their inability to get along with people, their tread straight back to the parents' discussing their characteristics in their presence, as if they were little stooges who were so stupid they didn't know what it was all about.

Nor many parents are intentionally unkind to their children. But many of them are stupidly cruel to their youngsters. Rather than set the dinner table in a roar by holding Johnny up to ridicule. Mother blabs the sacred secret that Mamie told her. And every word is a stab in the hearts of the poor little creatures who can't defend themselves.

If more parents respected their children's feelings and sensitiveness, we would have fewer delinquents.

By TED MEIER
New York, Feb. 18. —(AP)—Baylor clinched the Oklahoma Aggies' title in the likely win of the country's basketball conference last night.
Baylor clinched at least a tie for the Southwest Conference by defeating Southern Methodist last night.
It was the Bears' 10th straight conference win. They now need only one of their remaining two league games to replace the Aggies as champions.
The Oklahoma Aggies, with two victories over St. Louis, virtually regained the Missouri Valley conference crown. California, also conceding the Pacific Coast Southern division title, is favored by whoever takes the northern division laurels in the playoff of the conference blue ribbon.
Baylor's win was a first-class thriller. At one time Southern Methodist trailed by 23-7, but Baylor's sensational rally in the second half, led by the team's star, tied the score at 49-49 in the last minute only to see Coach Preston flip in the winning shot for Baylor a few seconds later.

New York University, pointing to an undefeated season, won its first straight. The Violets, 10-0, defeated St. Louis, 73-58, before 18,415 in Madison Square Garden after Long Island City, N. Y., took the game. The Aggies, 55-48, defeated the Aggies, 55-48, in a game almost upset by the Aggies' championship in the nature of a twin bill at Boston.

Holy Cross trailed until midway of the second half before pulling away to a 48-34 victory. In the game Boston University trimmed William and Mary, 71-61.

Michigan State's second largest crowd in history, 12,081, saw Notre Dame whip MSC, 51-44, to extend the Irish six-year jinx over the Spartans.

St. Louis, still hoping for a post-season tourney bid, thrilled 10,876 fans by overcoming a 10-point second-half handicap to defeat DePaul 50-46 in overtime.

Clemson pulled the major upset of the season in the Southern Conference. The underdog Tigers, previous winners of only one league game in 13 starts, dumped Duke, 62-57.

North Carolina state walloped Davidson 89-52 in another Southern Conference fray.

A free throw by Johnny Back in the last three seconds gave Georgetown University in the nation's capital.

St. Joseph's surprised by whipping the Philadelphia City Rival, Temple, 68-54, thereby virtually ending Temple's hopes of a post-season tourney bid.

Oregon State trampled Idaho, 64-44, in the northern division of the Pacific Coast conference. Norm Hankins, of Lawrence Tech, made good on 12 straight shots from the field as his team swamped Selfridge Field, 102-50.

Police compared the accumulation of junk to that found in the fifth avenue mansion in which Horner and Langley Collier died a year ago.

Mrs. Jennie Dooney, one of the oldest residents of the West 95th street building, said that the only time Miss Fowler was known to

VFW Organization to Purchase Iron Lung

An iron lung to be used in Hempstead county has been purchased by the local Veterans of Foreign Wars and will be stationed permanently. In the photo the lung has been fitted on W. D. McFadden. Standing left to right: Dr. R. C. Lewis, Rev. J. W. Williams, Rev. J. H. Covington and J. A. Harris.

Dies After Being Alone 25 Years

New York, Feb. 18. —(UP)—Twenty-five years ago a beautiful young heiress, grieving over the deaths of her parents, locked herself in her family's luxurious apartment—a prisoner of sorrow.

She refused to go out. She refused to see friends.

Fancy acquaintances of Mary Warren Fowler recalled the story today, after her body was found in the junk-littered apartment where she had held herself prisoner.

Neighbors, who had not seen her face since she took herself out of the world of society, called police last night to investigate the 52-year-old Miss Fowler's apartment.

They had heard no noise from her apartment for several days and suspected she might be dead.

Police broke down the door and found her body, fully clothed, on the bathroom floor. Examiners said she had died of natural causes about a week ago.

"Not a single square foot of any of the seven rooms of the apartment was clear of junk," Detective Stephen Brennan said.

"There were cartons of food, piles of empty tin cans, stacks of newspapers and old clothes, rags, magazines and every kind of household utensil. Stacks of newspapers nearly reached the ceiling."

Police compared the accumulation of junk to that found in the fifth avenue mansion in which Horner and Langley Collier died a year ago.

Mrs. Jennie Dooney, one of the oldest residents of the West 95th street building, said that the only time Miss Fowler was known to

Marshall Knows Nothing of Russian Peace Feelers for 'Cold War' Settlement

By DEWITT MACKENZIE
AP Foreign Affairs Analyst
Secretary of State Marshall says that so far as he knows there's nothing in reports that the Russians have been putting out peace feelers in Berlin for a settlement of the "cold war" with the U.S.A.

Well, if the general doesn't know about them it's a safe bet they haven't been any, because he would be about the first man to be formed of any such momentous development. As a matter of fact, it's hard to see what possible basis there could be for thinking Moscow was making peace overtures.

Why should Russia want peace? By waging a carefully planned "cold war" of aggression (and sometimes not so cold, at that) she has brought virtually all of eastern Europe and part of central Europe under Soviet domination. At the same time she has extended her influence over Manchuria and a great section of northern China, and just now has virtually annexed Poland.

Meantime in other countries, Soviet agents and native adherents to the cult of the clenched fist have been stirring demonstrations of what Communistic intensive organization can do. So, taking it all around, the Bolsheviks would seem to have done fairly well for themselves—on paper. Why, then, should they suddenly sue for peace?

In answering this question we must remind ourselves again that the cold war wasn't of spontaneous origin. As this column has pointed out before, it is a part of Bolshevism's thirty year old plan for world revolution for the establishment of communism. It is a project which never will cease until either (1) communism succeeds in overthrowing the world, or (2) The Red advance is halted by a material barrier—like the Marshall plan, for example.

It is true that in Europe the Communist drive has slowed down to a crawl. However, this is due to the fact that Moscow already has taken over all the countries in which it had armed forces and thus is in complete control. The Bolshevik Satellite empire now includes everything up to the Stettin-Adriatic line, which is the frontier of demarcation between Red eastern Europe and Democratic western Europe. The Russians can't employ their troops to the west of that line, and so must depend on the usual Communist strong-arm tactics to create situations out of which Soviet regimes may be established. It is to prevent the success of these tactics, of course, that the Marshall plan was devised.

But we have a far different picture in the Orient. Russian fighting forces are widely scattered in strategic positions which must encourage Moscow to believe that the Soviet has a good chance of bringing Manchuria and northern China within its orbit of control. Along with northern Korea, the Bolsheviks have double encouragement in the fact that the Chinese Communists, in their revolutionary efforts to establish themselves in northern China and Manchuria, are in effect fighting Russia's battle for her.

No, I don't believe Moscow is suing for peace. It might well be that the Soviet Union will reach a point where, for a change, it will be willing to make a concession here and there. However, such concessions won't be for altruistic reasons but to provide easement for Russia in some situation that is worrying her.

Communism is out to destroy "capitalism" and establish totalitarianism everywhere—period.

a Dublin attorney.

The idea of an Irish government without the mystical, new York-born de Valera, was still a little strange for many Irishmen. Most of them agreed there would be little immediate change in Irish life under Costello's coalition. The quiet, cautious new prime minister is leader of the conservative Fine Gael (United Irish) party.

Even since de Valera broke away from Britain in 1921 it has been ruled by a single party government. For the first 11 years William Cosgrave's United Irish governed. In 1922 de Valera, a rifle-carrying rebel in the early days of the British, took over. Some have criticized what they termed a "one-man government" under de Valera.

He said today he renounced his American citizenship because of his "one man" ideals.

"National interests are incompatible with humanity," he says. In a formally written explanation of his action, Noel said he was prepared for "any and all consequences."

Here are some of the "consequences":

He eats ordinary German rations of 1,500 calories daily—when they can be obtained. He works as a common laborer for a building company at a salary that leaves him about 25 marks (\$2.50) a week after deduction of taxes and social insurance.

His room is part of a small hall, partitioned by a blanket. It contains scant furniture and no light bulb. From his bed the smell of the pigsty below is strong.

Noel says he chose Kassel because:

It was heavily bombed and thus will give him a taste of what the Germans are enduring. It is near the boundary between the Russian and American occupation zones and hence is at the heart of the East-West conflict.

He hopes to stay here a year or two. U. S. military government officials doubt he will achieve his hope. They question legality of his entrance into Germany. He may be returned to France where, they said, further disposition of his case will be up to the French.

De Valera May Overthrow New Coalition Rule

Dublin, Feb. 19. —(AP)—Eire began its first experiment in coalition government today, and to most Irishmen this simply meant: "dev" is out.

But while Eamon de Valera, prime minister since 1932, has been turned out by the Dail (Parliament), he remains a political force. His Fine Gael (Irish soldiers of destiny) party holds 68 parliament seats, only six short of a majority.

De Valera followers, far from downcast, are predicting the overthrow of the coalition and new elections within the year.

A five-party coalition, apparently resentful at de Valera's 16 years in office, joined forces yesterday and elected John A. Costello, 56,

have left the apartment was to make an occasional trip at 3 a. m. to Trinity churchyard cemetery to visit the graves of her parents.

Mrs. Dooney's son, Thomas, an attorney, said he often had seen Miss Fowler 30 years ago when she was attending a fashionable boarding school. He described her as very beautiful then.

Her father was a wealthy patent attorney, Dooney said. He died in 1921 and her mother died two years later. Miss Fowler was so stricken with grief that she refused to attend the funeral and locked herself away from the world.

She bought her groceries two months at a time, paying as much as \$200 by handing it through a narrowly opened door to the grocer's boy.

She never let him see her face. She took the food into her apartment after the delivery boy would leave.

She hid her face from the gas and utility men who came once a year to read the meters. They said that she went barefooted in the apartment.

Tito Protests Arrival of U. S. Cruiser

By DONALD J. GONZALES

Washington, Feb. 19. —(UP)—Yugoslavia has protested to the United States over the arrival in Trieste of the American cruiser.

In a note delivered to the Department, Yugoslavia said the presence of the 10,000-ton cruiser raised the strength of American forces in Trieste above the 5,000-ton mark established in the Italian peace treaty.

Yugoslavia also charged that the cruiser's visit violated treaty terms which state that no armed forces will be allowed in Trieste, except those directed by the United Nations Security Council.

The note, delivered a week ago, asked for an investigation of the cruiser's call. It asked assurances that similar visits of American vessels would not be made in the future without "proper" authority.

Authoritative sources said the note was one of four delivered by Yugoslavia in the last week. None of them had been disclosed previously.

Two of the notes protested the arrest in Trieste of two public officials, presumably by the United States. A third objected to the alleged interception and search of a Yugoslav courier in Trieste.

It was understood that the State Department has asked American authorities in Trieste for information on the alleged "incidents."

A navy spokesman confirmed that the Providence was in Trieste, the first of this month on a "routine" call. The ship left Taranto, Italy, on Jan. 29, for Trieste, and remained there until about Feb. 10 when it moved to Venice.

The Providence is assigned to the navy's Mediterranean force. It carries a normal peacetime complement of 900 men.

Congress Decides to Pass Few Laws

Washington, Feb. 19. —(AP)—Congressional leaders decided today it's time to get busy passing laws. Committees have been doing most of the work so far this year. And for the last week or so many members have been away making political speeches.

But House Republican Leader Halleck (Ind) and Speaker Martin (Mass) went into a huddle and came up with a lawmaking program they say will keep Congress occupied well into the summer.

In fact, Halleck told newsmen the House may have to hold several Saturday sessions in the next few weeks. Saturday meetings of Congress are rare.

The Senate buckled down to work yesterday and zipped through a resolution to hold government spending to \$37,200,000,000 during the fiscal year starting July 1.

That's \$2,500,000,000 less than President Truman figured on in his budget message last month.

The House plans to take up the budget cut matter next Wednesday. There isn't an opposition vote in the Senate, and no major fight is in prospect in the House.

The spending goal, simply a target and not binding on anyone, also calls for a payment of at least \$2,000,000,000 on the national debt next year.

Halleck listed these other measures on next week's House docket: (1) An appropriation bill for rivers and harbors and flood control; (2) a 30-day extension of rent control; (3) an indefinite continuance of the president's expiring authority to control tin, antimony and similar scarce materials; (4) extension of the maritime commission's power to charter government merchant ships; (5) President Truman's controversial proposal to make the wartime transfer of the United States employment service to the Labor Department; and (6) final action on a compromise bill revising the civil service retirement system.

The Senate starts debate tomorrow on its own rent control bill, with a final vote set for next week. Following that, the Senate will vote on the hotly disputed St. Lawrence seaway and power project before taking up the European recovery program on which the House still has another week of hearings.

The retina of the human eye contains 180 million rods which distinguish brightness and seven million cones which distinguish colors.

Democrats Show Signs of Distress

By HAL COOPER

Washington, Feb. 19. —(AP)—The Democratic National Committee raised an out and out distress signal today in the face of the Henry A. Wallace third party drive.

Chairman J. Howard McGrath said he hopes Wallace will "realize" that he can accomplish nothing but "the defeat of the Democratic party's program of practical liberalism in 1948."

McGrath virtually appealed for abandonment of the Wallace campaign in a radio speech last night.

The address followed McGrath's frank admission that the victory of a Wallace-backed candidate in Tuesday's New York congressional election is a big danger sign for the Democrats.

In the New York race, Leo Isaacson, running as an American Labor Party candidate with Wallace's support, upset Democrat Karl F. Fropper by a wide margin.

Wallace, on a speech-making tour of the South, gave no indication that he plans to heed any call to "come home, all is forgiven."

Instead he announced at Miami Beach that his supporters have obtained 464,000 signatures on a petition to put his name on the primary election ballot in California.

Franklin D. Roosevelt carried that state by only about 475,000 votes in 1944.

Meanwhile the row between national Democratic leaders and party members in the "Solid South" flared up again in Washington.

A group of Southerners canceled their reservations for the big 5,000-plate Jefferson-Jackson dinners tonight where prominent Democrats will rally around President Truman.

The issue was one which has brought a chorus of rebel yells from south of the Mason-Dixon line in recent weeks: The color line.

Mrs. Olin D. Johnston, wife of the South Carolina senator, said she decided not to attend the dinner "because I might be seated next to a Negro."

She said her party of 45 had dwindled to around 30 because some of the others felt the same way.

McGrath told reporters a dozen or more Negroes planned to attend the two dinners here. He said he could not cover any segregation.

Mrs. Johnston called the harp

symbolic of party leaders' efforts to get minority votes through "civil rights" proposals that led to threats of a Southern bolt.

McGrath showed deep concern over the Wallace threat in his radio address. He said he thinks Wallace himself is "sincere" enough, but added:

"The fact that the loudest applause for Henry Wallace comes from Communists, Communist-led travelers and reactionary Republicans causes me to believe that the bulk of Henry Wallace's support is coming from those who basic allegiance is not the American way of life."

I hope that Henry Wallace will realize that unscrupulous forces who look to Moscow for inspiration and guidance see in his candidacy a change to disrupt the normal activities of our two party system and bring about the chaos and confusion of splinter parties that has sent so many nations of Europe into governmental collapse.

"I hope that Henry Wallace will repudiate the supporters of his party whose only real hope is that they can defeat the Democratic party's program of practical liberalism in 1948 and turn the government over to reactionaries and isolationists."

Harold E. Stassen, candidate for the GOP presidential nomination, called the victory of the Wallace man in the Bronx Democratic stronghold good news for the Republicans.

It indicates, Stassen said at Spokane, Wash., that working men and women who used to vote for Roosevelt are leaving the Democratic party.

However, Senator Aiken (R-Vt) said the American Labor Party victory showed "complete satisfaction with both the old parties." He declared:

"Many voters are disgusted with the lack of good government on progressive ideas on the part of Republican party leaders."

Aiken often differs with the GOP leadership.

Senator Lucas (D-Ill), assistant Democratic leader in the Senate, told reporters the result did not mean much.

"Emotions were high and the

At all drug stores everywhere — in Hope, at Cox and Gibson Drugs.

Communists got out every vote," Lucas said. "The Democrats and Republicans stayed home."

Rep. Sadowski (D-Mich) said "the only thing that can save President Truman is to change our foreign policy and nominate Senator Pepper (D-Fla) for vice president."

Pepper's political views are such that he mentioned for awhile as a possible running mate for Wallace. He scotched those reports with a statement that he intends to remain a Democrat.

Old Machinist Is Toymaker for Kids of Neighborhood

A P Newsfeatures

Des Moines, Ia.—Making wooden toys to give to church schools and nurseries for distribution among children is a full time pastime for Arthur Hill, 73-year-old machinist.

"I like to give the toys to children just to see their faces light up," says Hill, who started his project as a hobby and developed it into a non-paying job when he retired four years ago.

He says he has sold a few toys, but never considered making money out of them.

"There's enough grief in the world," he says, "and I feel I'm doing a little bit to bring happiness."

He fashions cigar boxes into flat bodied men that move their arms and legs when a string is pulled. He makes miniature furniture and doll houses out of orange crate wood for little girls. He makes trucks and yellow buses for boys. His only expense for material is for paint and glue.

Tired Kidneys Often Bring Sleepless Nights

Fair Enough

By Westbrook Pegler
 Copyright, 1947
 By King Features Syndicate.

Superciliously, I thought, the Cincinnati Enquirer dismissed my summary of my newspaper experience in Europe and Washington, which certainly is not sufficient for a claim of statesmanship. I do admit. But how many members of the U. S. Congress can match it? How many editors? And how many of those American journalists who can match or outscore me in European experience have remained loyal to the United States? I have known hundreds of them. Most of those who had lived abroad, ten years or more despised their own country and us and were consciously devoted to a purpose of summoning the Americans to destroy Germany because the Nazis would take none of their impudence, or England and her stuffy ideas on marriage, and building up Russia. I know the type. They would get psychoanalyzed for the usual erotic reasons. They went quaint in little hotels run by comic penants, the papa an atheist and the mama a buxom nothing. They went canoeing and skiing and bundling on expensive accounts and the advantageous exchange. And a lot of them were burns who couldn't cover the hotel run in Des Moines. Two of them got the Oriental soul-sickness and became esoteric navel-gazers. I remember a night in the city room of the Chicago Tribune when James Vincent Sheehan, a dear, delicious soul from the Ritz bar in Paris, came through with the story of his wanderings in some place called the Rift.

We were newspaper people, turning out several editions a night, on time. Sheehan had been away on a long walk in Africa, on expense account, and his story of Abd-El-Krim was arriving. He and the Paris bureau thought highly of it. We didn't.

We had to inform ourselves who Abd-El-Krim was and I am not sure we were the better for having done so.

Can anybody in the class — not editors, please — tell me quick, who Abd-El-Krim was? And are all those who can't answer forbidden to have any ideas on foreign policy? Now, senators and congressmen, who was Abd-El-Krim?

When Gandhi was shot, Sheehan ran on and on about his own pretty, posturing soul. But only three months ago, in New York, he saluted Gerhart Eisler, the dirtiest ingrate and the foulest Communist of them all. Yet our War Department made him a colonel of the nuisance corps in the war.

"It should be noted," the Enquirer says, "that Pegler is not a familiar figure in Washington, the fountainhead of our foreign diplomacy. Veteran capital correspondents cannot recall ever having seen him at a State Department press conference. Several say they have never seen him at a presidential conference."

No, I am not a "familiar figure" in Washington. I have spent not less than two months a year, in season, in Washington in the last five years and my Washington experience dates from the first disarmament conference in Harding's time, but I am not a "familiar figure." Just a freshman; to be sure. But I select my own courses. I don't run to "press conferences" because mostly they are worse than futile. Roosevelt developed a school of sycophants who asked the questions and closed the show when he wanted it. The same sycophants had abused Mr. Hoover for selecting questions to his liking out of the hate, and accused him of leading the hunt.

I went to three early Roosevelt conferences. They were all exhibitions, not contests. I had one "intimate" conference with Roosevelt and I never got over my disgust at the smirking wickedness of the man the president, who sat there and told me that the great C. I. O. riots in Michigan, the vandalism and criminal anarchy, were just multiple disorderly conduct, simple assault and malicious mischief. They were his riots because the C. I. O. was his. His C. I. O. deliberately caused and managed them and they were crimes. Charlie Mitchell, who was then employed as a lobbyist by Crosey Greew, our ambassador back from Japan, and next, a major-general in multi. I thus discovered that our own F. B. I. had been called in to run down Communist spies in our own Department of State, placed there by a personage in our own White House. You don't get that kind of news at press conferences.

Did the Enquirer ever pick up anything about Elliott Roosevelt's gyp loans and his father's swindles, or Henry Wallace's infatuation with an Oriental god-man, at a

\$38,500,000---And It IS Peanuts

These are the peanuts that will go with the scorecard of the ball game next summer, and will drown out the sound track of your favorite movie. North Carolina's annual peanut harvest brings in about \$38,500,000 worth of the goobers. These sacks are in a warehouse in Williamston, N. C., waiting for shipment to ball parks, circuses, carnivals, the peanut vendor—as well as to the processing plants which extract the oil for the some 300 uses of the nut discovered by the late Dr. George Washington Carver.

Rocket-Sled Hits 1000 Miles Per Hour

Rocket-powered sleds, similar to the one above at Muroc Air Base, Calif., can streak along railroad tracks at speeds in excess of 1000 mph, Air Force officials revealed. The unmanned, jet-propelled sleds have flashed over 2000 feet of tracks in less than two seconds since tests started in September 1946. The sleds weigh about 1600 pounds and are powered by five giant fuel rockets, each developing 10,000 pounds thrust for 1.8 seconds. The experiments have been conducted by Northrop Aircraft to determine feasibility of outdoor wind tunnels in which objects being tested would move instead of the surrounding air.

Students Help Reconstruct London

University students are being paid union wages for part-time work in reconstructing London. The English city is critically short of labor. Here, students work to clear piles of sand in Queen Square that have been there since before the war.

I want to three early Roosevelt conferences. They were all exhibitions, not contests. I had one "intimate" conference with Roosevelt and I never got over my disgust at the smirking wickedness of the man the president, who sat there and told me that the great C. I. O. riots in Michigan, the vandalism and criminal anarchy, were just multiple disorderly conduct, simple assault and malicious mischief. They were his riots because the C. I. O. was his. His C. I. O. deliberately caused and managed them and they were crimes. Charlie Mitchell, who was then employed as a lobbyist by Crosey Greew, our ambassador back from Japan, and next, a major-general in multi. I thus discovered that our own F. B. I. had been called in to run down Communist spies in our own Department of State, placed there by a personage in our own White House. You don't get that kind of news at press conferences.

I attended a few other press conferences, but never one of Cordell Hull's. Still, I am not a stranger to the State Department. On one of my visits, I interviewed Joseph Greew, our ambassador back from Japan, and next, a major-general in multi. I thus discovered that our own F. B. I. had been called in to run down Communist spies in our own Department of State, placed there by a personage in our own White House. You don't get that kind of news at press conferences.

Skychiefs Win Again Over Naval Reserve

In the second district AAU game at Camden last night the Skychiefs of Emmet soundly licked a Naval Reserve team 74 to 33 in a lopsided contest.

Scals led the Chiefs with 18 points followed by Calburn with 16 tallies. The Emmet five plays the Painters of El Dorado tonight at 7:30.

Other games: Lakeside 47; NAD Marines 31, Lakeside 44, Painters of El Dorado 46.

Major League Holdouts at 'Last Stand'

By CARL LUNQUIST

New York, Feb. 19 — (UP)—The major league holdout situation was getting to the "last stand" stage today with the unhappiness being brought out into the open in statements by both players and club owners.

Bob Carpenter, Jr., president of the Philadelphia Phillies, was the most emphatic. He made it plain that the Phillies had sent their "last contract" to Outfielder Harry Walker and that from now on it was up to him, even if he was the National League batting champion of 1947.

"He is very foolish if he doesn't sign it," Carpenter said.

The Dodgers, with 25 of their 40 players signed up, were getting a little backtalk from at least three of their stars, even though others were coming in daily with autographed contracts.

Outfielder Reiser said that "I don't think my demands are too big and I'm not going to give in."

Reiser said he hadn't heard from Boss Branch Rickey since he sent back his latest unsigned contract early this week.

Reiser said he wasn't too sold on the climate in St. Louis at this time of year but that he might stay there until his first pay day on May 1, if the Dodgers don't make the next move.

Outfielder Carl Furillo, who was the last Dodger to sign up last year, still is stubborn and suggested after returning two unsigned contracts that he might just "stick around on the farm up near Reading, Pa."

Other Dodger die-hards were Pitcher Joe Hatten, Second Baseman Eddie Stanky and Shortstop Peeewe Reese, all of whom announced dissatisfaction with what has been offered.

The Browns were having their main difficulties with the Pitchers Fred Sanford and Sam Zoladak. Outfielders Paul Lehner, Al Zarilla, and George Metkovich and Infielders Bob Dillingham and Garly Priddy among 22 who are unsigned.

Things were a little better with the only nine unsigned players on the world champion Yankees, eight with the Senators, seven with the Tigers and six with the Indians.

The White Sox made no revelations.

In the National the St. Louis Cards had 27 players not known to have signed although the club does not officially announce signings.

The Cubs, who follow the same policy had 19, while the Dodgers were next with 15. The Phillies had 11 others besides Walker, the Giants 6, the Reds two, and the Pirates none, the only club in either league with all hands signed up. The Braves did not report.

Princeton Nips One of Top Teams in U. S.

Princeton, N. J., Feb. 19 — (AP)—Princeton took its place today in the ranks of college basketball's giant killers—its badge a surprise 55-54 victory over unbeaten Columbia.

In upsetting the Lions were last night in a spectacular overtime game, the Tigers cut the list of unblemished teams in the country to one. New York University stands alone with 17 straight wins.

Columbia had rung up 14 in a row this season before encountering its Ivy League nemesis.

The score was tied 52-52 at the collegiate (Ivy) League record.

Bernie Adams, who led Princeton's gym, Walter Budko of Columbia ran his total points for the season to 520 for a new eastern intercollegiate (Ivy) League record.

Princeton's victory put the Tigers in a tie for first place with Columbia. Cornell, only one game behind, still is in the running.

Dartmouth, with a 76-68 triumph over Yale, retained an outside chance.

Kansas State drubbed Kansas, 48 to 29, to retain its slender lead in the Big Seven conference, half a game ahead of Missouri and Iowa State. Kansas played a stalling game in the first half which ended with K-state ahead, 14-9.

Duke's hopes of playing in the annual Southern Conference championship tournament next month took another drop. The Blue Devils were walloped, 70-37, by North Carolina State. It was N. C. State's ninth straight conference win.

Georgia beat Georgia Tech, 65-58, in the Southeastern Conference and Arkansas State of Jonesboro dumped Mississippi, 78-53.

Woody Johnson Signed to Manage Helena

Helena, Feb. 19 — (AP)—Woody Johnson, 33, left-handed pitcher, will manage the Helena Seaporters of the Cotton States League, announced.

Johnson pitched the latter part of the 1947 season for Oklahoma City in the Texas League, racking up a record of four wins and four losses.

Images are focused upside down on the retina of the human eye. The mind turns them right side up.

Friday, Feb. 19 — (AP)—The Detroit Lions of the National Football League were poised today to sign a new coach, as the team's new head coach, Earl "Red" Blum, was expected to accept a seven-year coaching contract at a salary of \$30,000 a year.

McMillin, gray-haired strategist of Hoosier football teams for 17 years, flew into Detroit last night to accept the contract.

To accept the contract, Blum had to be released from the 17 remaining eight years of an agreement with Indiana, which pays him at least \$12,500 annually as head coach and athletic director.

Rumor also has it that Blum would be accompanied to the professional post by two of his Hoosier assistants—Line Coach A. (Tim) Temperato and Backfield Coach Owe L. (Chili) Cook.

McMillin's post with the Lions would be a double-barreled one, head coach and general manager, getting a shrewd football coach who twice has directed star teams to victory over National League clubs at Chicago.

A college coach for more than 20 years, Blum took his first job as a coach in 1926 at Centenary (La.) college and Kansas State.

Blum's coaching record at Kansas State was 10 wins and 10 losses in 1931-32, 1932-33, 1933-34, 1934-35, 1935-36, 1936-37, 1937-38, 1938-39, 1939-40, 1940-41, 1941-42, 1942-43, 1943-44, 1944-45, 1945-46, 1946-47, 1947-48, 1948-49, 1949-50, 1950-51, 1951-52, 1952-53, 1953-54, 1954-55, 1955-56, 1956-57, 1957-58, 1958-59, 1959-60, 1960-61, 1961-62, 1962-63, 1963-64, 1964-65, 1965-66, 1966-67, 1967-68, 1968-69, 1969-70, 1970-71, 1971-72, 1972-73, 1973-74, 1974-75, 1975-76, 1976-77, 1977-78, 1978-79, 1979-80, 1980-81, 1981-82, 1982-83, 1983-84, 1984-85, 1985-86, 1986-87, 1987-88, 1988-89, 1989-90, 1990-91, 1991-92, 1992-93, 1993-94, 1994-95, 1995-96, 1996-97, 1997-98, 1998-99, 1999-00, 2000-01, 2001-02, 2002-03, 2003-04, 2004-05, 2005-06, 2006-07, 2007-08, 2008-09, 2009-10, 2010-11, 2011-12, 2012-13, 2013-14, 2014-15, 2015-16, 2016-17, 2017-18, 2018-19, 2019-20, 2020-21, 2021-22, 2022-23, 2023-24, 2024-25, 2025-26, 2026-27, 2027-28, 2028-29, 2029-30, 2030-31, 2031-32, 2032-33, 2033-34, 2034-35, 2035-36, 2036-37, 2037-38, 2038-39, 2039-40, 2040-41, 2041-42, 2042-43, 2043-44, 2044-45, 2045-46, 2046-47, 2047-48, 2048-49, 2049-50, 2050-51, 2051-52, 2052-53, 2053-54, 2054-55, 2055-56, 2056-57, 2057-58, 2058-59, 2059-60, 2060-61, 2061-62, 2062-63, 2063-64, 2064-65, 2065-66, 2066-67, 2067-68, 2068-69, 2069-70, 2070-71, 2071-72, 2072-73, 2073-74, 2074-75, 2075-76, 2076-77, 2077-78, 2078-79, 2079-80, 2080-81, 2081-82, 2082-83, 2083-84, 2084-85, 2085-86, 2086-87, 2087-88, 2088-89, 2089-90, 2090-91, 2091-92, 2092-93, 2093-94, 2094-95, 2095-96, 2096-97, 2097-98, 2098-99, 2099-00, 2100-01, 2101-02, 2102-03, 2103-04, 2104-05, 2105-06, 2106-07, 2107-08, 2108-09, 2109-10, 2110-11, 2111-12, 2112-13, 2113-14, 2114-15, 2115-16, 2116-17, 2117-18, 2118-19, 2119-20, 2120-21, 2121-22, 2122-23, 2123-24, 2124-25, 2125-

Doctors Are Opposed to British Plan

London, Feb. 18 —(AP)—British doctors have voted overwhelmingly against taking part in the government's new program for free medical service, the British Medical Association said today.

Whether the doctors will strike against the authority of parliament, which passed the medical service act last year, will be decided by the BMA's representative assembly of 376 doctors March 17.

The poll, conducted by the BMA, showed 25,340 doctors voted against the law "in its present form" and 4,034 approved it.

Of the physicians voting, 24,066 pledged to stay out of the service.

The doctors have three main objections to the law.

The first is that it forbids the buying and selling of practices. This brings large sums, especially to specialists and consultants whose fees are high.

The second thing they oppose is the establishment of a basic-state salary for doctors. The guaranteed salary of 300 pound (\$1,200) a year, they say, is an "entering wedge" for a fully salaried state medical service. The BMA wants doctors to be paid only on the basis of the number of

patients treated. The law provides this kind of payment in addition to the salary.

The third thing the doctors object to is that a doctor dismissed from the state service cannot appeal to the courts against his dismissal. The law provides that a doctor can be dismissed only by a three-man body—a lawyer, doctor, and layman—acting on the recommendations of a local council made up largely of doctors. The minister of health can approve the tribunal's findings but cannot reverse them.

The bill provides free medical, dental and hospital services, medicine and even false teeth for all Britons.

Its cost will be paid by the government. Part of the funds for paying for it will come from a portion of the social security deductions from workers' pay checks, the rest out of the treasury.

Many Photos of Lincoln Prove Fakes

AP Newsfeatures
Springfield, Ill.—Countless pictures of Abraham Lincoln, thought by their owners to be rare and valuable, have provided mounting evidence for Lincoln scholars since his death almost 65 years ago. But only occasionally does a photograph prove to be authentic.

Lincoln students count a little more than 120 authentic photographs which have been discovered up to this year, the 129th anniversary of the birth of the great emancipator.

Jay Monaghan of Springfield, Illinois State historian and author on Lincoln, says one of a hundred of the photographic claims "would be dangerous not to answer." There is always a chance, he says, that a new picture might be uncovered.

Lincoln scholars were rewarded for time-consuming investigations during 1947 with discovery of two new Lincoln photographs—one in Decatur, Ill., and another in New York.

To the knowledge of Lincoln scholars, no picture was ever taken of Lincoln and his wife together. Yet, Monaghan relates the Illinois State Historical Library receives from persons claiming to have a rare photograph of Mr. and Mrs. Lincoln.

The historical library probably has the largest collection of Lincoln literature in the world. It has a file of many pictures of Lincoln and his wife which are not authentic.

A number of them are made from a well-known picture of Lin-

New Look No Deeper Than Your Nails

By BETTY CLARKE
AP Newsfeatures Beauty Editor
The "new look" will go to your fingertips this Spring. Nails will be shorter. They will be more rounded. They will be more pink and will have a "new moon look."

There is a trend toward the oval-shaped nails, extending slightly longer than the end of your fingertips. Long pointed nails, in the American woman's opinion, have gradually disappeared from the scene.

Back in the Chow dynasty, dowagers used to let their nails grow to such a length that they required gold-tipped supporters. But the new feminine era of longer skirts and padded hips makes the American woman conscious of her lady-like charms.

Besides, the average American girl works for a living, in her home or elsewhere. Though she strives to keep herself well-groomed at all times, she can't afford to take the time or trouble to let her nails grow to the point of being cumbersome.

To get that pretty, well-cared-for look to your nails, leave the moons. Don't cover the whole nail, and leave a snowy white tip. If you have ridges or if the tips are inclined to be brittle, and you feel you must cover them with polish to hide these small flaws, make use of a nail buffer. Leave polish off your nails for a few days and buff them fully. Pretty soon the tip will look as smooth as the rest of your nail.

Blue is going to be a bit color for spring in fabrics of every color. Spring in fabrics of every color. Spring in fabrics of every color. Spring in fabrics of every color.

Few girls buy a lipstick after they already have selected their nailpolishes. Today most of these come in sets and are purchased together. You will find your lipstick a perfect mate to your nailpolish and a matching team to flatter the perky pink ribbon bow on your bonnet or a camellia at your lapel.

Tips on How to Purchase Piece Goods

Four-H Club clothing demonstrations can pay more than ever this year with the high prices of clothing, piece goods, and accessories declares Home Demonstration Agent, Mary Dixon. "You cannot afford to make a mistake in purchases, so it is best to think through all you will need before spending any money."

Make a list of the occasions for which you will need outfits—school, church, informal parties, picnics, swimming and 4-H camps. Look over all the clothes you have on hand to see how many can be used another year, she suggests. Some of them may need changes, letting down hems, adding new trimming or even making over completely. You probably will want your mother to help plan the changes.

You now have a list of the occasions for which you will need clothes, and a list of the clothes you already have. Now would be a good time to talk over your plans with your mother and decide which part of the remodeling you are to do, which new clothes are to be bought ready-made and which ones are to be made at home.

This is where your 4-H clothing demonstration comes in, she explains. If you are just a beginner in sewing, you had better plan to make a cotton outfit or a school dress for summer. This might be a gathered skirt with a separate blouse or halter. The more advanced girl may choose a wool skirt and a blouse. She might buy a slipover sweater to harmonize with the skirt to make another year for school wear. Another type of clothing demonstration might be a cotton sport outfit or one made of wool.

The older 4-H club girl may want to plan and make a wardrobe for going away to school or work or for homemaking. In any case, work out a real problem in clothing that will meet your actual needs, she suggests, rather than make an isolated garment that does not fit in with your wardrobe needs.

Stationmaster Is Jailed in France Following Wreck

Lille, France, Feb. 18 —(AP)—Station Master Albert Dufour, 49, of Thumeries was jailed today as charges of involuntary manslaughter in connection with a train wreck last night which police said cost at least 24 lives.

The accident, caused when a passenger train collided with a freight train, occurred near Thumeries, 15 miles from here.

Police said Dufour told them he had had an argument with an employee and had become upset; that he prematurely gave a signal for the passenger train to leave Thumeries. Ordinarily, police said, the passenger train was held in the station until the freight passed.

John, sitting in a chair and reading to one of his sons standing at his side. Likenesses of Mrs. Lincoln and their two other sons are posted on, sometimes to the right of Lincoln and sometimes to the left.

Monaghan opines that Lincoln's picture on the five-dollar bill is a "bum-phoney." He tells this story: The engraving on the currency was done by William Edgar Marshall from a portrait which Marshall claims to have painted from the white reading law in Lincoln's Springfield office. This engraving shows Lincoln with a beard, but he didn't start raising a beard until later.

Bailey, Adkins Not to Attend Demo Dinner

Little Rock, Feb. 18 —(AP)—Carl E. Bailey and Homer M. Adkins were in accord today — probably for the first time in their lives. The two former Arkansas governors, long bitter political enemies, have announced they will not attend the Jefferson-Jackson day dinner here tomorrow night, will not contribute to the J-J day dinner fund, and they think the state Democratic organization is wrong if it undertakes retaliatory action against the national party organization.

Adkins defeated Bailey in the latter's third term bid for governor in 1940. Before and since, the two former governors consistently found themselves in opposite political camps within the Democratic party.

Their decisions about the state-national party controversy and the Jefferson-Jackson Day dinner were made and announced independently.

Bailey said he would not attend or contribute to the function because of discussions that the proceeds might be withheld from the national party coffers. Adkins said he would be out of the city Thursday night and was withholding his contribution until he knew where the money is going.

Three Held for Theft of Safe Containing \$500

Morehouse, Mo., Feb. 18 —(AP)—Only a few hours after thieves had carried off a safe containing about \$500 in cash from the Wayside cotton gin here yesterday, three men were in jail at New Madrid and most of the money recovered, the police said.

The intra-party controversy stemmed from President Truman's civil rights message to Congress. Most Arkansas party leaders condemned the president's stand and have advocated some type of retaliatory action.

highway patrol announced today. The three held were identified as Harold Torrence, Fred Chaffin, Jr., and Robert Lee Irvin, all Morehouse residents. Sgt. E. F. Dampf of the highway patrol said they admitted participating in the theft and that charges are to be filed against them in New Madrid county.

The moisture of the human eye is capable of killing most germs which might cause inflammation.

Galena, the name of a common lead ore, has given its name to towns in five states of the United States and one in Alaska.

PILES TROUBLE?

For Quick Relief
DON'T DELAY ANY LONGER! Now, a doctor's formula you can use at home to relieve distressing discomfort of pain—itching—irritation due to piles. Tends to soothe and shrink swollen piles. RESISTOL "Self-Confirming"

Designed by Harry Rolnick

The unique separation of leather from hat lets a Resistol ride "free" and fit you "naturally" regardless of your headshape.

Ronald Reagan
starring in
Warner Bros. Production
"VOICE OF THE TURTLE"
Wears a Resistol "SPORTSTER"

YOU'RE HEADED

for Comfort!

You'll notice the difference immediately you try on one of our Resistols. The specially attached cushion-soft leather conforms to your head naturally. Your Resistol keeps its original smart styling because the leather—not the hat—moulds to your head. The few moments you take to discover the comfort of a Resistol will pay you big dividends in comfort and lasting wear.

Fragile Look Is Sought by Fashion

By BETTY CLARKE

AP Newsfeatures Beauty Editor
This spring's American beauties will look as if they had stepped out of 18th century portraits. Dress designers and cosmetics manufacturers have cooperated to present the fragile look in costumes and makeup.

Gowns of delicate pink, pale blue, orchid and pale yellow by leading American designers were shown at a recent fashion show. Worn with these were sheer pink, blue, yellow, light green and orchid stockings, satin or leather slippers with baby French heels. Makeup in each case—light, bright or medium—emphasized the pastel tint to produce the creamy skinned consistency of an 18th century beauty. Instead of wearing the cake ma-

keups which are available with a sponge, the models wore a cream base foundation, available in cake form.

Advice was that these new pastel tints in cake form can be smoothed on the face and neck with the fingertips right over previous makeup. Even if applied several times during a day of shopping and appointments, the skin can remain fresh and clear by using the foundation sparingly.

The trick this year will be to look made-down as possible. All makeup should be applied with a deft hand. The cheeks will take on a faint-blush look and the lips will be coated with pink lipstick instead of the heavy, brilliant reds.

New Heights for Ovens

New streamlined automatic gas ranges are equipped with high ovens and high broilers so that a woman of average height can lift things directly into or out of the oven without stooping.

Easter Hats to Offset New Look

By FLORENCE MILLS
AP Newsfeatures

Paris—Easter bonnets this spring are going to be enchanting contraptions of straw and frilly especially created by Paris hat designers to dispel the rather aging effect of the "new look" dresses.

They can be worn with ease by older women and at the same time will make the young look youthful to an extreme.

Foreign buyers, well equipped with extra spending money gleaned from the recent franc devaluation, are going out on a purchasing spree and you can expect the hats to roll off the assembly lines in good time for the Easter parade.

Many of the models are of expensive silks, satins and gypsy-type scarves set on hand-shaped wired buckram mounts. But the majority are of Milan, Florentine or exotic Bakre weaves blocked into a variety of shapes which lend themselves excellently to mass production.

Varieties of the pancake and cloche, Breton sailor and bunnet, toque and tricorne are explored to the full but each shape is generally incidental to the trimming which mainly takes the limelight.

The angle at which hats are worn is very important. Most of them sit straight on the head in exactly the same place you would set a book if you were trying to balance it. Others are slightly tilted to the side-front.

"Roofs of Paris" series, executed in Milan and Florentine straw, is meeting with great success. Buyers say the shape is "completely new."

Some of the color combinations shown are exotic and striking. Deep purple flashes against forest green and corn and pale lemon flirts with bright red. Shades of stone, beige and honey form perfect backgrounds for the boldest colors of nature.

Some of the missing U. S. Sailors may be in France.

Hyeres, France, Feb. 18 —(UP)—Some of the eight American sailors from the carrier Midway reported missing in harbor accident may still be alive on shore, French harbor officials said today.

No bodies have been found despite an intensive 24-hour search by both French and American officials. The men were reported missing when a shore leave launch sank after striking a harbor pylon early yesterday.

"As long as their bodies have not been found, there is hope they are safe," a French port official said. The Midway still remained outside the harbor today while the search for the missing men continued.

The missing men, identified by the navy, included: Aviation Machinists Mate 1-c William Louis Ducros, Tampa, Fla. Maine T-Sgt. Hershel H. Donahue, Kingston, N. C.

Pianist Says Hubby Agrees to Career

By ADELAIDE KERR
AP Newsfeatures Writer

"My husband and I never discussed putting my career ahead of his," said Eunice Podis. He just took it for granted I would continue to work and act on his every word and action that he wants that more than anything else."

Miss Podis is a 26-year-old Cleveland pianist, who made her New York debut at Town Hall last year and won high acclaim from critics. She had already built up a reputation in her home town, Cleveland and has played with the Cleveland and Chicago Symphony orchestras.

Her husband is Robert Carl Weiskopf, who once dreamed of being a symphony orchestra conductor and is now a salesman and director of a Cleveland cotton goods company.

The pattern on which they have built their marriage is very different from most. Coming at a time when more women than ever are trying careers, some people wonder whether it is a harbinger of an increasing trend.

Eunice Podis' father of a Cleveland dentist and Robert Weiskopf (son of Edward A. Weiskopf, president of the Cleveland Cotton Products Co.) met in music.

They played in the Cleveland Heights High School trio which won a first rating in a national high school contest. Dates, movies and more music followed in rapid succession. Then young Weiskopf went to the Eastman School of Music to study.

Eunice continued her piano lessons at home, played in local recitals and began to build a local reputation.

"Bob was more serious about it than I," Eunice said. He longed to be a symphony conductor. I had no definite ambition. But he was always deeply interested in my work and believed in me. When he was graduated from Eastman he organized the Cleveland Heights Symphony Orchestra and at its debut I played Beethoven's third concerto. Then, between his second concerto and one of my recitals we were married."

The war came. Young Weiskopf served in the Pacific and emerged from the war a sergeant, but he did not forget his music. While in Manila he began to conduct the Manila Symphony Orchestra during a series of concerts. The same year Miss Podis won the 1945 National Federation of Music Clubs Young Artists Award.

"When Bob came home he longed to return to conducting," she recalls. "For five months he tried to get an orchestra or backing to found one, but he couldn't. There was a fine alternative for him in business with his father and he accepted it. But I never pushed him in that direction and neither did his father."

By now his career was well launched. Bob felt I had better start and had extreme confidence in my ability. He's been my severest critic and most enthusiastic promoter. He has made me practice at least two hours a day ever since we've been married."

New York concerts cost money, but so far we have managed to do it without any assistance from outside. Before my performances he's a nervous wreck. He paces backstage and his collar wets. But after the Town Hall Concert when we read the reviews, he was the happiest man in the world.

"Every now and then I say, 'For what the Carnegie Concert cost we could have made the down payment on a house. Are you sure you would rather not have had it?' And always says 'No. I couldn't do without him.'"

Wright Plane to Be Placed in Smithsonian Museum

Dayton, O., Feb. 18 — (AP)—The Wright brothers' plane, the "Kitty Hawk," will be placed in the Smithsonian Institution at Washington, executors of Orville Wright's estate announced today.

The craft, first to fly with a man, is now in the Science Museum at South Kensington, London. Orville Wright sent it there in 1928 in a controversy with Smithsonian officials.

The announcement that the plane, which took to the air at Kitty Hawk, N. C., on Dec. 17, 1903, would be placed in

P-43 pursuit planes. The Atomcar is powered by an air-cooled rear engine and is hydraulically driven—no clutch, no differential, no transmission.

"It really is a fully-enclosed motorcycle," said Salisbury, adding that it has two extra retractable wheels, one on each side. "They drop automatically when the speed is reduced to five miles an hour and they retract again between five and eight miles an hour," he explained. "The biggest feature is automatic stabilization to prevent tipping at low speeds."

Salisbury said the car will be built for speeds not to exceed 42 miles an hour and will run about 45 miles on a gallon of gas.

Flaps on the rear wheel will propel it through water, he said.

the national museum was made by Executors Harold S. Miller of Dayton and Harold W. Steep of Lawrence, Kans. It complied with directions issued by Orville Wright, who died Jan. 30.

Benton Now Favors L. R. Medical Plan

Little Rock, Feb. 18 — (AP)—Proposed establishment of an Arkansas medical center on state hospital grounds here now has the blessing of Saline county interests.

State Senator Ernest Maner of Hot Springs, whose district includes Saline county, said in a telephone interview:

"All objections to location of the center on state hospital grounds in Little Rock have been ironed out by interests in this area."

Said State Rep. J. A. Gipson of Benton, where another unit of the state hospital is located:

"We are definitely interested in achievement of the proposed medical center plan. I think that I speak for the people of Saline county when I say that we stand ready to do anything we can to help."

Maner, Gipson and other Saline county interests previously had expressed opposition to location of the medical center on grounds of the state hospital's Little Rock unit.

established through removal of the University of Arkansas Medical School to the State Hospital grounds and construction there of a new university hospital.

Medical center proponents also hope the veterans administration will reconsider and build its new 500-bed hospital as a part of the center. Another site in Little Rock has been designated by the VA

for its hospital. The university's board of trustees is to meet with the state hospital board here tomorrow. It is expected that a definite site within the state hospital grounds will be determined.

Dr. Lewis W. Jones, university president, and Dr. George W. Jackson, state hospital superintendent, are to meet with the boards

New Midget Auto Has Two Wheels, Is Amphibious
 A P Newsfeatures
 Buffalo, N. Y. — A two-wheeled amphibious midget automobile that looks like a wingless airplane has been designed by a Buffalo aircraft engineer.
 The creator of this gasoline-powered vehicle, Frank M. Salisbury, calls it the Atomcar and expects to sell it "under \$500." He says test models for one and two passengers now are being made in Cleveland but he doesn't expect to attempt quantity production until 1949. Salisbury is a former project engineer on the Bell P-39 and

Texan, Family Go for Stroll of 850 Miles

Jonesboro, Feb. 18 — (AP) — A 79-year-old man and his barefooted wife and daughter have started a walk of 850 miles to their home in Texas.

They hope to make it in a month. Bessie Phillips, his wife, Minnie Lee, 39, and daughter, Bessie Lee, 12, passed through Jonesboro today on the way to San Antonio. They had come about 60 miles since they started at Dell, Ark., last Saturday.

Amazed at the sight of the woman and child in barefeet in February, a Jonesboro Sun reporter struck up a conversation with the traveling Texans.

The Phillips said they had walked from San Antonio to Dell last summer to pick cotton. The harvest is over now and they are on their way back.

Phillips — who was wearing his shoes — explained that he had enough money for train or bus fare to like to walk — it keeps me trim.

Asked why she and the daughter were walking in barefeet, Miss Phillips replied:

"Oh, we have shoes. It's just more comfortable barefooted this warm weather and we'd rather walk that way."

The temperature in Jonesboro at the time was about 60 degrees.

Traveling with the Phillips are two pups, one being carried by the

little girl and the other tucked in a baby carriage being pushed by Mrs. Phillips. Phillips was pushing a small cart carrying a tent, a stove and other camping equipment.

The walking Texans pitched camp about 10 miles east of Jonesboro last night. By mid-morning they were well on their way westward from Jonesboro toward Little Rock — 145 miles distant.

Hostile Welcome May Greet Mr. Truman

San Juan, Puerto Rico, Feb. 17 — (AP) — El Imparcial said today President Truman will have to pass through a Puerto Rican youth Congress picket line when he visits Governor Jesus T. Fierro Saturday.

The newspaper said the youth Congress plans to picket Mr. Truman when he arrives on a Caribbean visit. The reason for the planned picketing was not announced.

The White House announced President Truman will visit Puerto Rico, the Virgin Islands and Cuba during his trip. He is to leave Washington by airplane Friday and is expected to arrive in San Juan the next morning.

El Imparcial is an independent newspaper and the largest in Puerto Rico.

The youth Congress is made up of high school and university students. About 150 delegates had a meeting Sunday.

The newspaper El Mundo said one resolution adopted by the delegates declared the president and

Dixie May Demand Vice Presidency

Atlanta, Feb. 18 — (AP) — Dixie Democrats, revolting over President Truman's civil rights program, may demand a Southerner as vice presidential candidate, the Atlanta Constitution said today.

A committee of five governors may make the proposal at a conference with national party leaders in Washington Monday, the paper reported.

Gov. Strom Thurmond of South Carolina is head of the committee, named at a recent meeting of Southern governors. Governor Laney of Arkansas also is a member.

Among those reported under consideration for the vice presidential nomination were Sen. Walter F. George of Georgia, Sen. Harry F. Byrd of Virginia and former Secretary of State James F. Byrnes of South Carolina.

The committee may ask the president to back track on proposals of federal anti-poll tax, anti-lynching, anti-segregation and FEPC laws, the constitution added.

It will suggest also, the newspaper said, that another Southerner replace Tom Clark of Texas as attorney general.

The United States Congress were enemies of Puerto Rico. Another asked the United States for independence.

U. S. Officers Manhandled by Russians

By ROY ROBERTS
Seoul, Feb. 17 — (AP) — The U. S. Army reported today two of its liaison officers were manhandled and placed under temporary arrest at Pyongyang in Soviet occupied North Korea.

They were trying to watch a parade of the newly disclosed North Korea People's Army.

They are Major Daniel G. Costello, Imogene, Iowa, and Major Richard C. Biggs, Berkeley, Calif. A spokesman for U. S. occupation headquarters said the incident occurred Sunday. The same day a radio broadcast from Pyongyang announced establishment, with Russian approval, of a North Korean government with an army.

The spokesman said the American officers looked on. The two were released unharmed — and without explanation — about 30 minutes later. Costello said a civilian pointed a pistol at him. His camera was taken. He protested to Soviet authorities.

The incident was reported to both the Army and State Departments.

Lt. Gen. John R. Hodge, U. S. occupation commander, commented only that Soviet liaison officers were not to be satisfied by the freedom of movement, and can take pictures, including those of military parades.

This account was given by the spokesman.

Costello and Biggs were trying to find a place near the reviewing stand to see a parade "marking the second anniversary of the founding of the North Korean People's Republic."

Yesterday's U. S. Army announcement indicated that establishment of the government in the Russian zone was a new development. It further said a constitution was not to be ratified by the Peoples Council there until mid-March. This would be in violation of international agreements on Korea.

(In New York yesterday, Chairman K. P. S. Monon of the United Nations Korean Commission said he was "astonished" to hear of establishment of the puppet government and army in North Korea.

The parade was an all-Korean affair, including units of the Korean Peoples Army, groups of government employees, factory workers, farmers, and political units.

A lieutenant colonel of the Peoples Army and six civilians attempted to force the Americans to leave by pushing them. The U. S. officers stood firm. After about 10 minutes of tugging, the Americans moved along the street to a point near a group of Russian soldiers.

The Korean officer and the civilians followed and pushed the Americans toward a police box. They denied the Americans permission to talk to the Russians.

The Americans entered their jeep. A civilian drew a pistol, said he was a detective, and demanded Costello's film. Costello complied. The Korean constabulary was called and a guard placed over the Americans.

Costello's camera was snatched by a civilian who disappeared.

The Americans said they asked Russian officers to intervene, but the Soviets said they had no authority. After awhile, the Korean guards left without explanation and the Americans departed.

Truman Asks for Funds to Aid China

Washington, Feb. 18 — (AP) — President Truman asked Congress for \$570,000,000 today for aid to China.

In a special message to the legislators, Mr. Truman said that the aid would be conditioned on China's taking adequate measures to achieve "economic stability and recovery."

The help would begin when Congress voted it and could continue until June 30, 1949 — roughly a one-year program.

Truman said it would continue situation in China now is getting worse in spite of the aid the United States has given the Chinese in the past.

The Chinese government and people, he said, "are still laboring under the double and interrelated burden of civil war and a rapidly deteriorating economy."

Two Die of Asphyxiation in Cabin

Fort Smith, Feb. 18 —(AP)—Bodies of a man and woman from Fort Smith were found shortly after 11 a. m. Wednesday at a cabin of the Bollinger tourist court at Charleston, Ark.

Sheriff Bill Russell of Franklin county said the man was identified as James Kinsner, 33, and the woman as Mrs. M. J. Mattox, 33, both of Fort Smith.

Russell said Kinsner's identification was made by Albert Fox, Fort Smith, a business associate. The sheriff said Mrs. Mattox's body was identified by her father.

The sheriff said the deaths apparently were due to asphyxiation. An autopsy, by Dr. E. W. Pittman, was under way early in the afternoon. De Platoro is Franklin county coroner.

Sheriff Russell said the bodies were found by John Crowe, an employee of the tourist court. He said Crowe summoned City Marshal John Somers. Later in the day, Sheriff Russell and Seggrent, Doug Morris and Troopers Tillie Loudermilk and Bill Gardner of the state police joined in an investigation.

Sheriff Russell said the officers had learned from John Bollinger, the court operator, that the couple had rented a cabin between 9 and 10 p. m. Tuesday. He said that the doors and windows of the cabin had been closed tightly when Crowe went to the building Wednesday morning. The sheriff added it was not determined immediately how long the two had been dead when the bodies were found.

Both bodies were taken to the Smith funeral home, where the autopsy was being performed.

Sheriff Russell said the officers had learned Kinsner was married. He added that the officers were attempting to locate Mrs. Mattox husband at Dallas, Texas.

A persons who watches an average motion picture sees 250,000 separate pictures.

Minister's Widow Teaches Art of Hooking a Rug

AP Newsfeatures
Exeter, N. H. — A minister's widow who learned about hooked rugs from his parishioners now teaches the old time handicraft in three New England states.

Mrs. Elvin James Prescott has classes in Exeter, Dover, Portsmouth, Newton, Rochester and Hampton, in her home state. And she commutes to groups in Lynn, Haverhill and Newburyport, Mass., and South Berwick, Me.

At a recent exhibition in Haverhill, 250 hooked rugs were displayed.

Mrs. Prescott's parson-husband was an authority on New England antiques.

Chicago Gang Leader Found Wounded

Key West, Fla., Feb. 18 —(UP)—Key West police disclosed today that Bruno Tassone, of Chicago, was found critically wounded on the overseas highway near here Monday.

Tassone was sprawled in some bushes at the edge of the highway. His abdomen had taken several bullets, at close range. Police could not tell how many times he had been shot because "it looked just like one big hole in his stomach," they said.

Officers began an immediate investigation of the shooting. They declined to discuss the possibility that Tassone had been the victim of a gang shooting.

Police from Miami Beach were enroute here to question Tassone about a robbery attempt at the beach the same day of the slaying. A patrolman fired shots at three men who made their getaway.

Key West officers were dubious that Tassone had been hit in this fusillade, however, since he absorbed gunfire from in front and at apparent close range.

Police here said that Tassone was "in bad shape" and that Miami Beach officers stood "only a 50-40 chance of getting here before he dies."

Women Cooks Don't Want Any Advice

By IRENE SIMON
AP Newsfeatures
Berlin—Two bright young men on the American-controlled German-language Berlin radio station have learned from hard experience that when brash men take to cooking women take to criticizing.

Since the inception of their 15-minute program, "Wenn Maenner Kochen" (When Men Cook), Producer Hans Korngiebel and Announcer Rudolf Wagner have been snowed under by a barrage of mail from women listeners who've taken issue with their cooking instructions.

This does not bother the male cooks, though. Their program is beamed at bachelors and men whose wives have left them minding the baby and tending the kitchen.

Their "studio kitchen" is unlike the usual feminine "kueche". Both men go at cooking as if it were one huge joke. Rudi whistles the latest hits, Hans adds spicy jokes along with his spices, and occasionally they introduce a "Swedish character from the 'Society of the Friends of Mankind' who protests that their recipes are ruining humanity.

As the poor bachelor Rudi has evoked so much sympathy, fans send him packages of salt, baking powder, soda powder, lemon powder and headache powder. The latter was sent by a kind listener who suggested that he use it as an antidote for Hans' description of "Substitute-Coffee Grounds Cake."

An inspiration of improvisation, "Substitute-Coffee Grounds Cake" is made by mixing a half-pound of maize flour with one table-spoon of baking powder. After scrambling this mess together, one places it in a cake mold, sprinkles over it a topping of Substitute-coffee grounds flavored with "suesstoff" and baked for twenty minutes.

"Our recipes probably sound screwy to the rest of the world, but they are well suited to the times," says Rudi. "We try to feature such ersatz ingredients as 'molke' (watery part of milk); 'quark' (sour watery milk); 'suesstoff' (substitute for sugar); and 'gruetze' (farina substitute).

The following recipe for "Berliner Pancake" demonstrates what a man can do with a little "molke" and "quark":

"100 gram flour, 75 gram s r o a s t e d oatmeal, 100 gram s c o o k e d 'gruetze', 200 gram s 'quark', 100 gram s 'suesstoff', a little water, perhaps some flavoring, and a little baking powder, if available."

"People who've eaten this claim it tastes swell," says Rudi. "We never eat our own stuff. Our wives won't let us near the kitchen at home."

Hans, the "experienced cook," gets most of the program's critical fan mail.

"Here's something you probably never heard about," wrote an angry "hausfrau" in a note enclosed with a small bit of pepper. "Next time you tell us how to make goulash do not forget the pepper."

To placate this listener Hans read over the air her recipe for "Fried Potato Peel Pudding": "Put one pound of potato peels (well washed) through a grinder, a dash of salt, one tablespoon maize flour. Mix; fry without fat for seven minutes." The week following this Hans received a batch of angry letters from listeners suffering from stomach cramps.

By far the favorite recipe broadcast by the mad male cooks is one for "Herring Pudding." Its popularity is probably due to the fact that herring is frequently substituted for meat on the Berlin ration distribution.

If anyone is interested in this delicacy, says Hans, he should cut into slices and grate two herrings, mix with half pound of bread

Scenic Ride in Park to Hit 100 mph

AP Newsfeatures
Crystal Beach, Ont.—If a 98-foot drop at 100 miles an hour is your dish—here's your chance.

The world's most modern roller coaster, says the designing engineer for Crystal Beach Amusement Park, will be ready for use Decoration Day.

The new scenic railway, to be christened "The Comet," is rising rapidly at an estimated cost of \$125,000. It will replace the old "Cyclone," formerly the leading attraction at this amusement center about 12 miles from Buffalo, N. Y., on the northern shore of Lake Erie.

Engineer James T. Mitchell, an old hand at building breath-takers, says the cost is low, all things considered. Sixty percent of the 300 tons of structural steel being used for the Comet is coming from the knecled-down Cyclone.

The coaster, whose nearest rival is one in Coney Island, Cincinnati, Ohio (Coney Island, N. Y. doesn't rate), occupies 800 feet along the waterfront," says Mitchell. "It has a dip of 96 feet and is designed to give the thrill of floating through space. The ride itself is 3,000 feet long and will take about three minutes.

The 100-mile-an-hour speed reached on the drops will be cushioned in the comfort of foam rubber seats installed in three trains of three cars each.

Radio Puts 'em to Sleep—in Australia

AP Newsfeatures
Sydney, Australia—Three hundred persons went to a Sydney broadcasting studio the other evening to see and hear hypnotist William J. Ousley try to put his radio audience to sleep.

Telephone calls to the broadcasting station indicated Ousley put some radio listeners to sleep.

These were some of the complaints of telephone callers:

"A man said his wife was standing at the window laughing and throwing all her hats out."

Another said he had told a hypnotized friend to pick carnations from the garden and couldn't stop him. A dog was reported to have fallen asleep.

Most hypnotized listeners, however, were awakened when Ousley told them at the end of the broadcast to laugh at the mental picture of an amusing hat.

The experiment, Ousley told a reporter, was to encourage people to realize they can hypnotize themselves. Auto-hypnosis, he said, enables people to relax completely in refreshing sleep.

Listeners to his broadcast were told they were going to sleep, that they were relaxing and would soon feel relieved of all their worries. He alternated his instructions with a slow count.

crumbs, and two cups of water, add two teaspoons maize flour, two of baking powder, one grated onion, and bake in the oven for 15 minutes.

That "Herring Pudding" has become a postwar Berlin success is no surprise to Hans. He says it embodies that element which is lacking in women cooks—imagination.

"Amagination," explains Hans, "is the answer I gave to Rudi when he asked me what to do when a cake begins to rise: Just deal with it as you would a girl friend who wants to leave you—let her and the dough go as it will. They'll both come back to the desired level sooner or later."

Chef Now Is Dishing Out Music

AP Newsfeatures
Chicago—Patrick Curran, 31-year old lyric tenor who doesn't read a note of music, is laying aside culinary tools for a singing career.

Thirteen weeks after he arrived from England, Pat landed a job as chef of the Sherman Hotel's College Inn. Appearing on a local amateur radio program, he won first prize for singing "A Little Bit of Heaven" in an Irish manner.

The singing contest opened the opportunity door when the general manager of the hotel invited Pat to make a guest performance in the Inn show.

Audiences who heard Pat singing applauded for encores and he was signed for a regular singing engagement.

Billed as the "Singing Chef," Curran's previous experience in singing was when he gave impromptu concerts for troops aboard British ships during the war. He had served 11 years in the British Merchant Marine as a cook.

His dream of studying voice in Italy by arrangement of a priest at Wishaw, Scotland, where Pat was reared, was shattered by the war.

Patrick was born in Antrim, Northern Ireland. When his mother died his father came to the United States in 1922. Now a naturalized American citizen, Curran's father spent two years getting the necessary papers for his son's family—wife and two children—to enter the country.

New Invention to Help in Grading Scholastic Exams

AP Newsfeatures
Evansville, Ind.—Leroy W. Shrode, who teaches mathematics decided there must be some better way to grade examination papers than the legendary method of throwing them down a flight of stairs and grading according to where they land.

Now he has applied for a patent on a gadget he calls a "gradoscope," designed to speed the grading of the short answer type of examination.

Shrode has his Central High School pupils write their answers on strips of paper. He said it takes him 30 seconds to line up 31 answer strips, side by side, on the long easel board of his gradoscope. A slotted aluminum guide enables him to check the answer strips, line by line.

The efficiency-minded math teacher said he can grade examinations in one-third to one-fourth the usual time with his aluminum gadget.

Honest, I Didn't Know

USED FATS WERE STILL BADLY NEEDED!

Lady, where have you been? Used fats are needed now more than ever, because the shortage of fats and oils today is the greatest in the world's history. Our government warns us that the supply simply cannot meet today's industrial needs. You can help prevent this supply from getting too low by continuing to turn in your used fats.

You say you re-use them for cooking! Fine! But even the drops left after that are worth salvaging. Then how about melting down fat trimmings, skimming gravies? Those tricks yield plenty!

And come to think of it, what other kitchen waste can you convert into good hard cash? It's a point to remember, these days of high food costs! You know, prices butchers pay for used fats are up, on the average. So please... don't throw your fats away. Save 'em, and turn 'em in!

Keep Turning in Used Fats
